PVCu

Windows & Doors

PVCu, a low maintenance solution

PVCu offer a cost effective and virtually maintenance free window and/or solution. With exceptional thermal efficiency and an increasingly dynamic range of customisable specifications to choose from, there's no reason not to seriously consider PVCu for your replacement windows and doors.

Modern day PVCu products are among the highest quality and most durable fenestration products available. There is no risk of warping or rusting and unlike the early PVCu systems, our PVCu profiles are multi chambered and often surpass their rivals during industry standard testing.

Classic Casement Range

The Heritage Storm Sash sits perfectly in any property, whether it be a modern town house, a quaint country cottage or even a period home.

Our range of classic PVCu windows and doors are manufactured using Deceuninck's 2800 sculptured profile system.

Our classic PVCu range will look great in any surroundings; modern townhouse or country cottage, its subtle charm and elegance transforms the building like no other.

The classic windows feature outward opening sashes, which stand proud of the face of the window frame and are the more typical style used in homes you see today.

These windows have the added benefit of allowing all the window frames to be the same size (equal sightlines), improving the appearance of your property.

Our window and door products are certified to the latest security standards and are compatible with all standard security hardware.

The series can even incorporate glazing units up to 40mm thick which brings the added advantage of greatly increased thermal and acoustic performance.

A combination of elegance and style of traditional timber windows with all the benefits of PVCu

Ideal for period properties and those who want to add character to their homes

External flush contours

Authentic peg stay option

Designed to replicate the appearance of timber, flush casement windows are distinguished by sashes that close into the frame and finish flush with the face of the window. When open the flush sash opens outwards.

Flush Sash windows have the added benefit of allowing all the window frames to be the same size (equal sightlines), improving the appearance of the property.

Our flush casement windows have previously been approved for conservation areas. We are able to replicate the appearance and style of traditional timber windows with features such as our authentic Wood Grain Finish, Monkey Tail Handles and Georgian Bar options. However, we always recommend obtaining consent from a conservation officer before proceeding with an installation.

Lower sliding facility

Upper sliding facility

4 different patio door configurations

Unrivalled all-weather protection

Bringing efficiency, elegance and style to your home.

High performance weatherseal

Our series of windows and doors demonstrate every aspect of the intelligent thinking that has made these products market leading.

Internally we've adopted our tried and tested high performance multifunctional weatherseal. With a continuous seal welded at the corners, our airtight seal will keep you warm and snug throughout the coldest winters. Externally a new dual seal combination maximises water tightness and conceals hardware. An integral drainage slope encourages water to drain away quickly and easily.

Our latest high performance weatherseal incorporates:

- Tightly welded corner seals and low sightlines ensuring a perfect finish
- Tubular construction results in soft closing and an outstanding weather seal memory
- Weatherseal colours that blend perfectly with the window and door finishes
- Large contact surface area generating superb insulation and sound proofing properties

All kinds of surrounds
for all kinds of
properties

Protection from the
rogue elements too

Security

One of the most important considerations when purchasing new windows and doors is security. You simply can't put a price on security.

Multi-point locking system

Our windows and doors come with the latest high-performance multi-point locking technology meaning you can rest assured that you're keeping your home and family well protected.

Robust locking
devices ensure
your home is
secure

Secured by Design upgrade

You have the opportunity to request SBD (Secured by Design). SBD focuses on crime prevention of homes and commercial premises and promotes the use of security standards for a wide range of applications and products, including windows and doors helping to put the resident at ease.

Please note that 'Secured by Design' is not standard and must be requested as part of the specification.

CMS Gold License

Our PVCu range of windows and doors come with the CMS Gold Licence for security. The gold licence is the result of a complete security testing package that ensures we are fully compliant with PAS24:2012.
